Re: Novak Sanitary Landfill

Dear Mr. Towle:

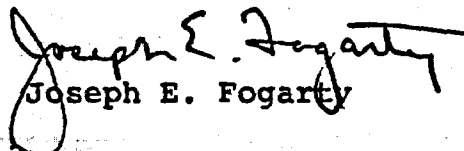

This will acknowledge receipt on August 9, 1988 of your letter dated August 2, 1988 identifying PP&L as a potentially responsible party regarding the captioned site.

At this time, PP&L lacks sufficient information to conclusively demonstrate its actual involvement as a generator of hazardous substances at the Novak Landfill. However, while such information is being further developed, PP&L is willing to participate in negotiations leading up to a remedial investigation and feasibility study of the site.

PP&L is unable to submit a statement of the work regarding anticipated remedial measures at the site since this information will presumably be adopted in concert with other participating PRPs and must await the formation of a group for that purpose.

Further contacts by EPA should be directed to the attention of Mr. James F. Villaume, Senior Project Scientist-Environmental Management Division, Two North Ninth Street, Allentown, Pennsylvania 18101 (215)770-5094.

Very truly yours,

Joseph E. Fogarty

cc: Mr. S. A. McClaren - TW-3
Mr. J. F. Villaume - N-4
Mr. M. F. Basta - N-4
Mr. J. W. Geiling - N-5
